FOREX & CRYPTO SOLUTIONS FOR BROKERS

Products & Services

GET TO KNOW US BETTER

FX & Crypto solutions

Match-Trade Technologies is a fully integrated technology provider delivering turnkey trading solutions for Forex Brokers, ECN Venues, Liquidity Providers and Crypto Exchanges. We help our clients optimize their business by increasing efficiency and lowering fees.

In-house technology

Most of our products are based on in-house developed matching engine technology, which provides ultra-fast feeds and reliable execution for all our clients. It was designed to make the FX market more open, transparent, distributed and exchange-like.

Global company

We have operated on a global market since 2013. With our headquarters in Irvine, California and offices in Europe, Malaysia, India, South Korea, and Cyprus, we offer our services to clients worldwide.

Our Broker and IT support office based in Poland provides 24/7 dedicated technical support and advisory services. We pay the highest attention to the performance and stability of the trading infrastructure delivered to our clients.

BROKER SOLUTIONS HUB

We provide the **award-winning technology** to help Brokers worldwide increase the potential of their business and stand out on the market

Our team has put a lot of effort into developing our own **Broker Solutions HUB** to guarantee the maximum performance of the tools we provide. We're pleased to see that our technology is appreciated not only by customers but also by the industry.

Easy access to the platform through **web, mobile and desktop** apps

Broker's Branded app available for download from Google Play and Apple Store

CLIENT OFFICE WITH CRM AND ANALYTICS - MANAGE YOUR

Convert more leads to traders by automating all of your onboarding and payment procedures. The automatic analysis of your customers and partners' activities to better plan your business.

Keep track of deposits and withdrawals

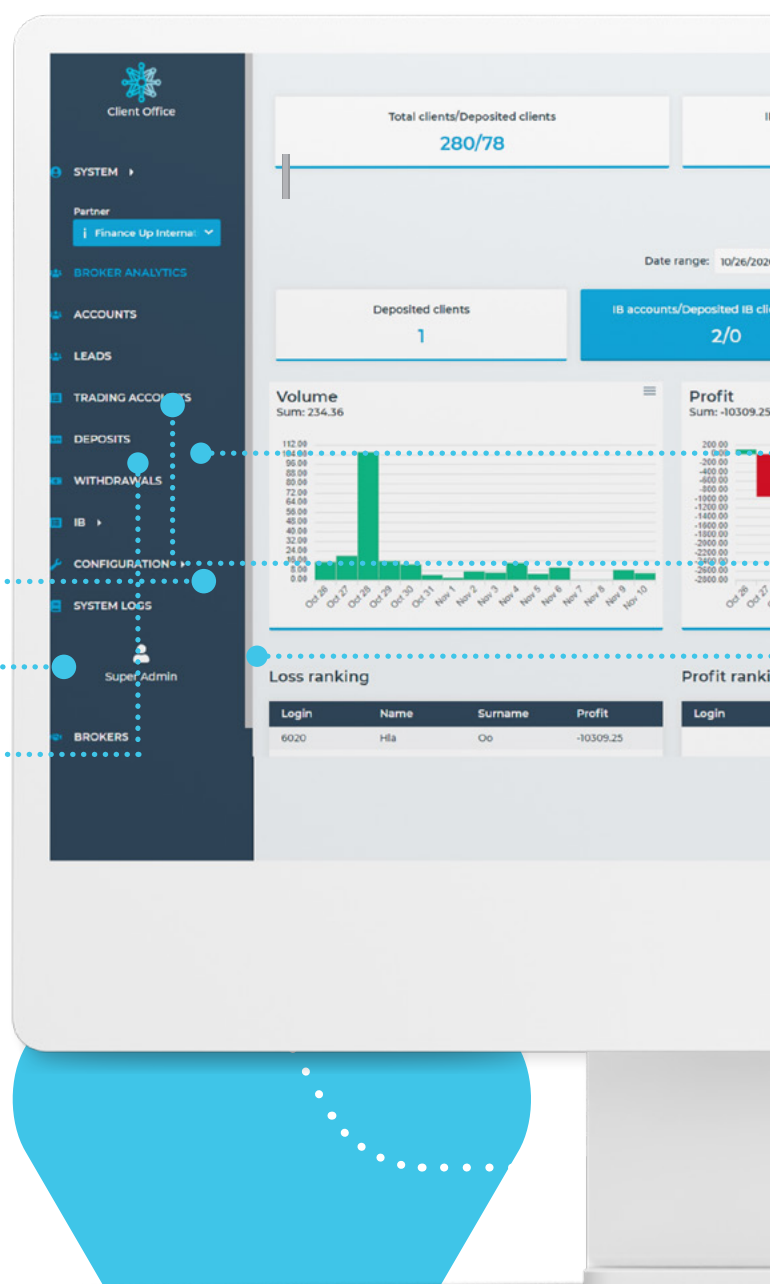

Stay up to date with all payments and withdrawal requests. You (or your team members) will never miss your client's requests. The Client Office will send e-mail notifications whenever an action that requires your reaction occurs.

Speed up onboarding procedure

Streamline KYC processing and opening accounts for traders. After registration, customers can upload relevant documents in the app for immediate review and verification. The Broker decides to enable the KYC option, e.g. they can set it only for particular payment method.

Provide effective payments solution

By dint of the integration of Client Office with Match2Pay our in-house crypto payment gateway, you can settle all of your clients' payments in Crypto while offering your customers trading in FIAT currencies. It's faster, cheaper and requires fewer formalities.

ALL YOUR BUSINESS IN ONE PLACE

Businesses in one place. Take advantage of business decisions.

Send Automated e-mails

Streamline the customer journey. Client Office has templates for automatic e-mail sending. Create your own content and decide when customers should receive reminders, i.e. about the need to deposit funds.

Register users through your own website

Using intuitive and customizable registration forms on your website new accounts will automatically create in the Client Office.

Engage leads and investors through marketing campaigns

Connect with your customers using the built-in banner ad space; influence investors' activities by promoting special offers and competitions.

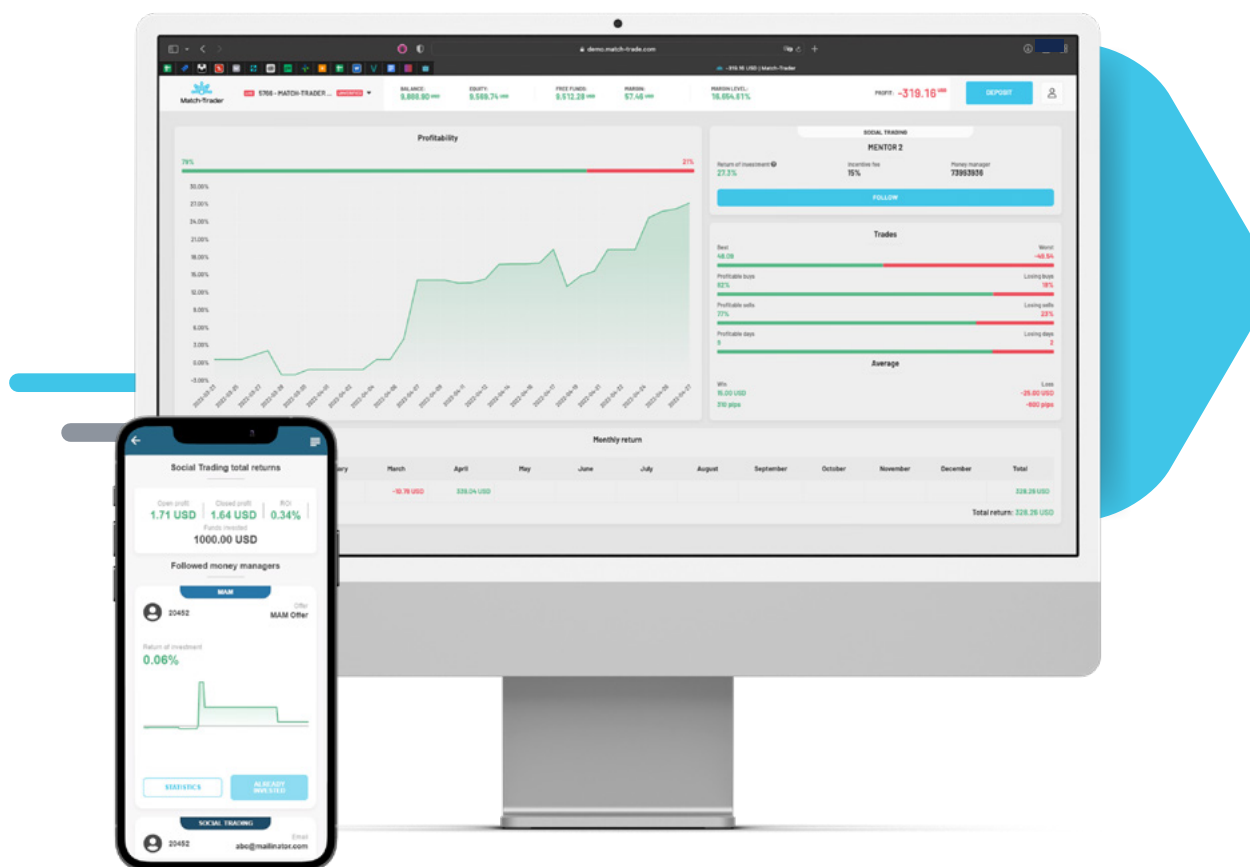

Monitor investors' performance

You can track the balances of all client's accounts, view all open positions, historical trades and ledgers on each trading account.

Branded mobile app for traders with dedicated IB office

Increase the involvement of traders by providing them with an advanced application to manage trading accounts on their own. Give Introducing Brokers a very convenient tool to manage their accounts and sub-IBs, keep track of their performance and commissions.

SOCIAL TRADING - COPY TRADING APPLICATION

Attract more clients by enabling them to copy trades and investment strategies of experienced money managers. No need to integrate external solutions, our Client Office has it all.

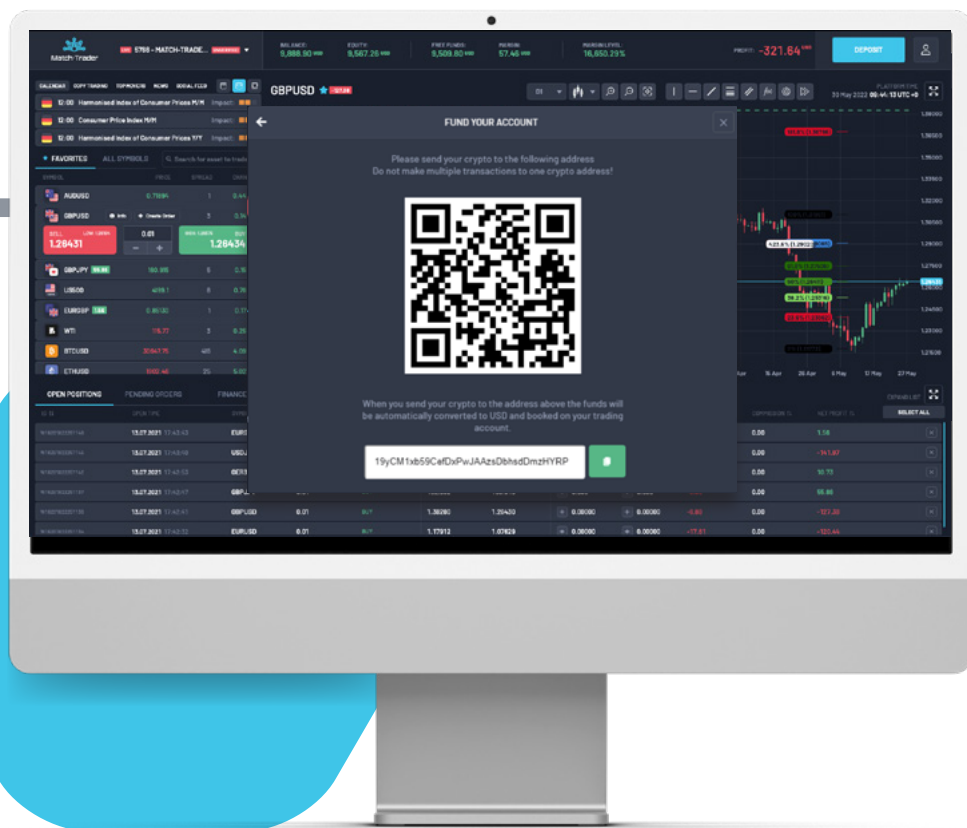

Our trading solution will help you increase the activity of your customers. All users of our Client Office have convenient access to Copy Trading directly from the app without having to log into different platforms. Grow your business by attracting both novice traders and experienced money managers.

Key features to ensure easy and automated trading:

- + Convenient mobile and web app - seamlessly integrated with Match-Trader platform
- + "Maximum loss" option to limit losses by automatically closing positions
- + Positions' markings & real-time notifications (available for Match-Trader users)
- + "Follow amount" - amount allocated to invest with a chosen money manager
- + Advanced statistics of observed masters (e.g. open positions, ROI) available in the Client Office
- + Copy Trading available on MT4, MT5 and Match-Trader platforms

Our solutions are designed to help Brokers acquire and retain more traders. Offer your customers support in the trading process to increase the volume of transactions on your platforms and make your brokerage business grow faster.

CRYPTO PAYMENT GATEWAY WITH EXCHANGERS

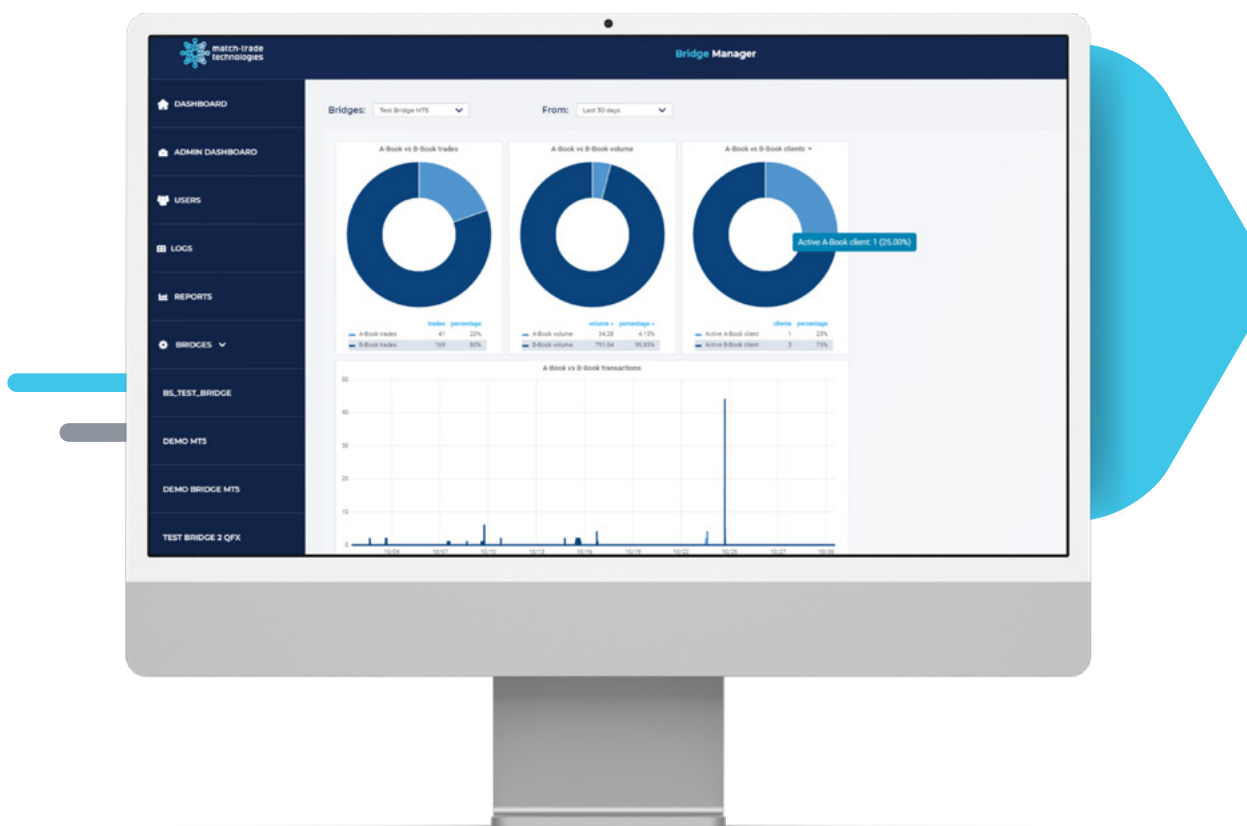

Match2Pay payment gateway is a complete and fully automated solution allowing to settle all of your clients' payments in crypto while still offering them trading in FIAT currencies.

Additionally, Match2Pay provides seamless integration with reliable and cost-effective exchangers, therefore clients can buy crypto in a fast and secure way using a credit card or wire transfer.

Key features:

- + Support for various cryptocurrencies including Bitcoin, Ethereum, USDT, USDC and other ERC20 and TRC20 tokens
- + Automatic confirmations of deposits
- + Integrated exchangers to buy cryptocurrencies with credit cards or wire transfers
- + Seamless integration with Match-Trade Client Office
- + Individual and automatically generated addresses for each client
- + Conversion rate calculations to multiple FIAT currencies
- + Back Office and GUI interface for managing and reporting the payments
- + Possibility of integration with 3rd party systems via API

MT4/MT5 BRIDGE WITH RISK MANAGEMENT

Advanced Bridging and Trade Processing Technology for A-Book and B-Book.

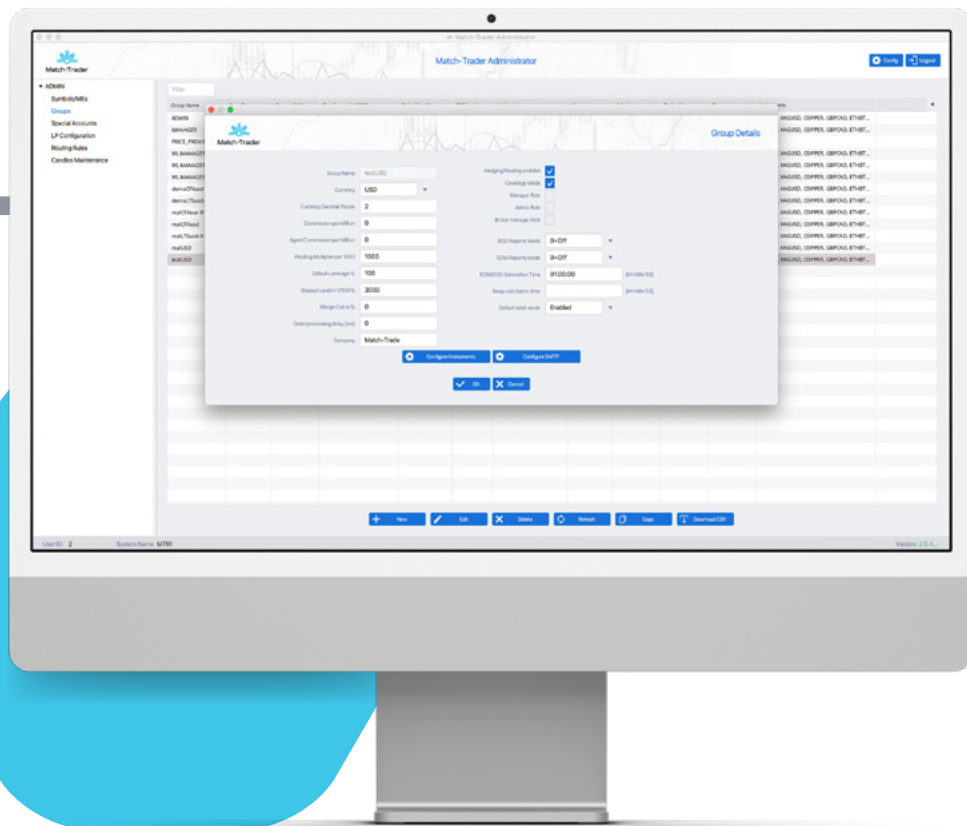

Match-Trade processing & bridging technology provides a very competitive and complete solution for all types of brokers.

MT4/MT5 Bridge and Liquidity Aggregator can work seamlessly with many Liquidity Providers, therefore we can provide you with full flexibility in connecting to desired liquidity pools. We have created a scripted language that allows creating different hedging and risk management algorithms. Our Bridge can be customized to your needs.

What we offer:

- + Web-based Bridge Manager Application
- + Statistics & Hedge Monitor inside the platform
- + Market watch to check your price validity
- + Fast setup, no further MT4/ MT5 plugins needed
- + Risk management algorithms configuration
- + Multiple LPs integrated
- + Market depth for incoming and outgoing streams
- + 24/7 Technical Support from our experts
- + Various B-Book execution modes
- + Auto hedge and adjust positions options
- + Advanced reporting to check trades' profitability
- + Rules scheduler to change symbol parameters

BACK OFFICE APPS

We provide our White Label clients with back office applications allowing every Broker to make modifications whenever they feel the need and manage the entire system on their own.

Manager with API

The Manager API allows Brokers to integrate closely with Match-Trade's system and connect external applications.

- + Manage all of your clients' activities and accounts in one place
- + Manage deposits and withdrawals
- + Access various reports
- + See clients' trades, accounts' information and more

White Label Manager

Gain flexible control over the existing white label setup. Change spreads, mark-ups, and commissions whenever you want without having to contact Match-Trade administrative support.

Key features of White Label Manager:

- + Changing markups and modifying commissions on client group
- + Updating swaps and leverage on each instrument in the group
- + Changing margin call and stop out level for each group
- + Configuring daily reports and margin call notifications

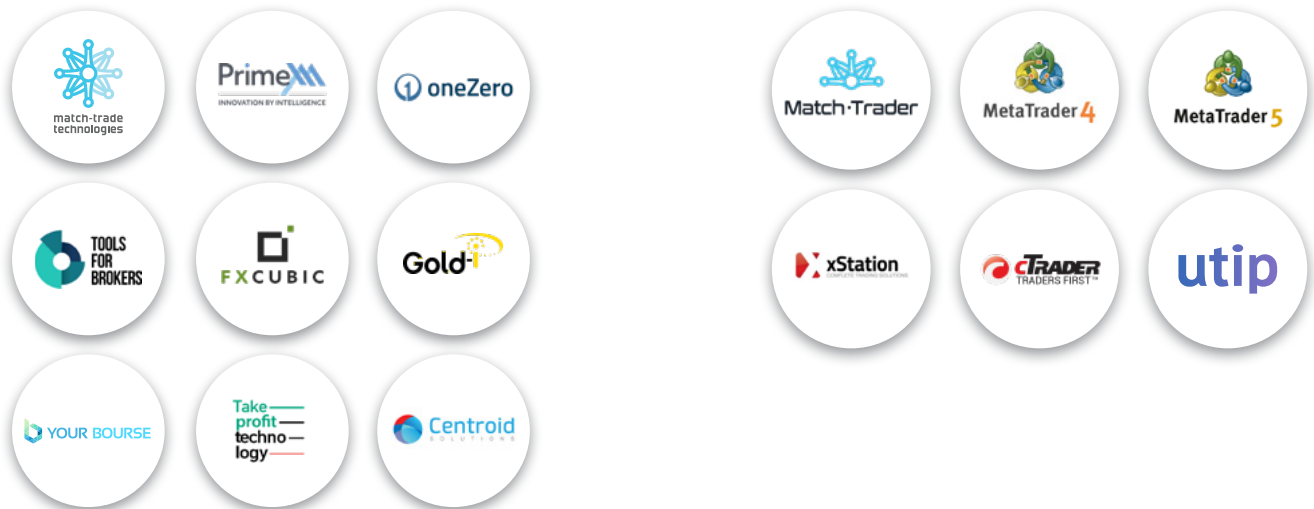

ECN LIQUIDITY SOLUTIONS FOR ALL BROKERS

Get direct access to ECN Liquidity from institutional liquidity pools on a Prime of Prime model – through our partnership with Match-Prime, CySEC regulated Liquidity Provider.

We offer liquidity access to 2000+ trading instruments and 8 asset classes on a single account

- + Forex **50**
- + Commodities **10**
- + ETFs **15**
- + Energies **5**
- + Cash Indices **15**
- + Metal **10**
- + Future Indices **25**
- + Cryptocurrencies **50**

Our liquidity is available for Brokers using:

Benefit from one of the market's best liquidity solution:

+ Ultra-fast Matching Engine technology

Match-Trade's matching engine is installed right next to the MT4 / MT5 servers to speed up communication and minimize execution latency.

+ MT4/MT5 Bridge package

If you decide to choose Match-Prime ECN Liquidity you'll get our MT4 / MT5 Bridge solution without additional costs. You gain access to all the advanced features as well as our ultra-fast data feeds for B-Book execution.

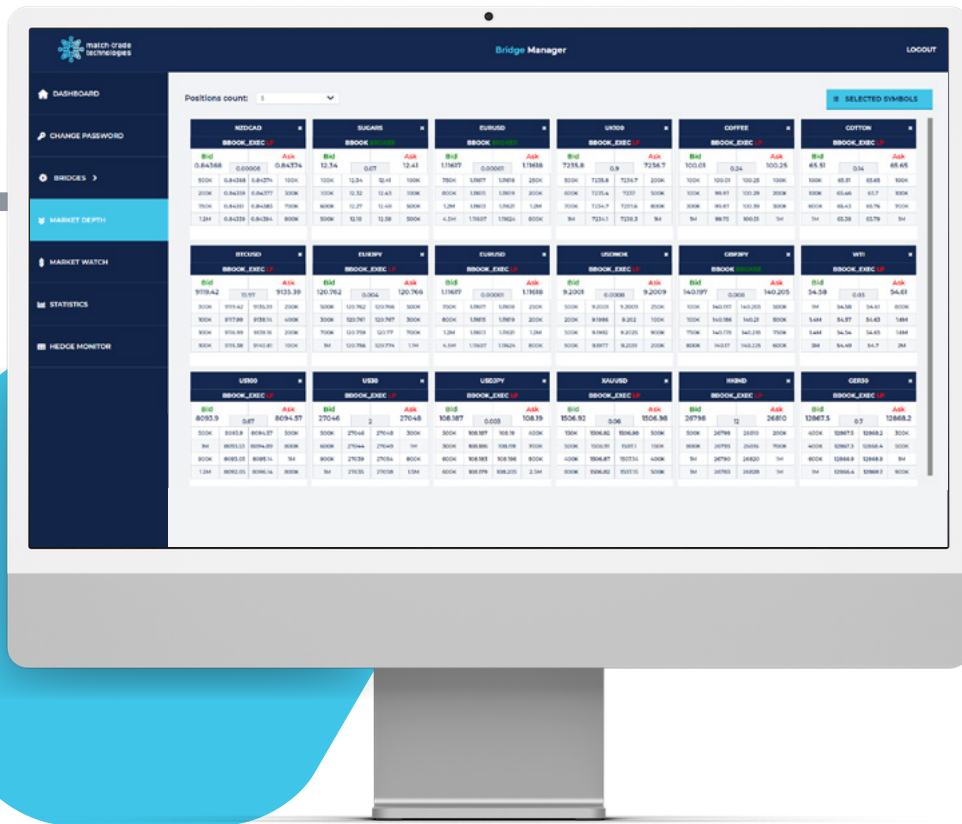

+ Low commission

Thanks to our proprietary solutions and the strategic partnership, Match-Prime Liquidity can offer lower commission and a minimum monthly fee as low as \$1000.

+ Cryptocurrency liquidity

Match-Prime Liquidity provides access to liquidity for over 50 most popular cryptocurrencies including Bitcoin, Dash, Ethereum, Bitcoin Cash, Ripple, Litecoin and Dogecoin.

ULTRA-FAST DATA FEEDS & EXECUTION

Match-Trade Data Feeds provide the low latency price streams for FX, Indices, Commodities, Equities and Cryptocurrencies. In total, we have more than 2000 instruments in the offer.

All available prices streamed without any delay.

Match-Trade's price streams are not subject to price filtration, therefore customers will receive all prices available, without any delay. This feature is crucial for market makers or B-Book Brokers as it allows to provide reliable execution based on the low latency price feeds.

Key benefits:

- + Low latency Data Feeds for FX, CFDs and Cryptocurrencies
- + Data Feeds available via FIX or MT4/MT5 unifeeder protocol
- + Unique source of prices from internal ECN market
- + Integration with oneZero Hub, PrimeXM, T4B, FX Cubic, Gold-I and more
- + Reliable B-Book execution based on exchange-based market depth
- + FIX Data Feeds with five levels of market depth (up to 10)
- + Broad range of instruments
- + VWAP execution

- + Forex and crypto liquidity from a trusted partner. Available for regulated Brokers and offshore entities

BUSINESS SETUP & CONSULTING SERVICES

Match-Trade provides a wide range of services, essential to start and develop a viable FX or Crypto company:

+ Company Formation

We have successfully built a network of agents around the world, who can help you establish a new company in the desired jurisdiction. They will advise you regarding the most suitable solutions in terms of time, cost and usability. Our partners can also assist you with obtaining a Forex or Crypto license in Europe, Asia or Africa to conduct your business according to all legal requirements.

+ Professional Website

As an FX Broker, you will operate in a digital environment, so in addition to the trading platform itself, you also need a professional website. We offer a ready-made branded website to build your Broker's image and increase the conversions for opening trading accounts by integrated registration forms and Client Office. We can also provide professional marketing materials for Match-Trader or MT4/MT5 trading platforms.

+ Payment Solutions

Currently, regulations for FX and Crypto companies became very strict. Many startup brokers face severe problems with opening a bank account or merchant account with popular payment providers. By using our network of agents and advisors you will be able to reach all possible options, which are available for FX Brokers or crypto companies. Besides that, we can provide you also crypto payment solutions, which were developed by our company.

+ Consulting Services

Most of the new FX Brokers or Cryptocurrency companies lack experience in some areas that concern conducting this specific type of business. Therefore we offer all our clients needed business expertise and advisory services regarding legal issues, risk management, sales strategy, technology and any other, which is needed.
